New anti-aging serum

Have you heard about the anti-wrinkle serum creating all the buzz?

To some people, wrinkles represent wisdom and maturity; to many of us, however, they signify something else.

Cosmetic Solutions Science of Beauty now brings you the brand new [TNS Essential Serum™](#), a revolutionary serum from SkinMedica® that combines two anti-aging formulas. The resulting blend works in synergy to transform and regenerate skin for better texture and a more youthful look.

In a recent clinical study, 37 women aged 32 to 55 with mild to severe wrinkles used the serum twice a day for three months. Of those women, 89 percent of them saw vast improvements in overall skin tone and texture. All women also saw an improvement in the appearance of fine and coarse wrinkles, skin radiance and elasticity.

On top of that, the serum also fights environmental damage and strengthens the skin's natural ability to regenerate itself.

If you'd like to learn more about The Science of Beauty behind the SkinMedica product line, just call us at 319.368.5566 or [contact us](#) today.
