Consider timing as you plan your cosmetic procedures

At Cosmetic Solutions, we use state-of-the-art procedures to help you look your best - all without painful, invasive surgery and long recovery times. Despite this, planning still plays an important role in determining when a treatment should occur. Things like sun exposure and recovery times all need to be taken into consideration before a treatment can begin.

So, if you are considering a laser, IPL, peel, or injectable treatment, planning ahead is essential. Identify the special events, such as weddings, reunions or other celebrations, where you want to look your best and then plan accordingly.

Do something good this holiday season and look and feel healthier

Help us support hundreds of local children in need this holiday season and receive a 10% discount off any Cosmetic Solutions procedure or product.

We are proud supporters of the 2009 Angel Tree of Giving program to benefit hundreds of at-risk children served through the Hawkeye Area Community Action Program, or HACAP.

Visit us and take an angel from our tree to help a child in need by donating an item from their wish list. All angels will have child's first name, age and gift request. For every angel brought back, we'll give you a 10% discount off any Cosmetic Solutions procedure or product.

Dr. Johanna Abernathy, M.D., 4 years with Cosmetic Solutions

"One of my favorite procedures is still the Laser Genesis. It is a non-ablative, no-touch laser treatment for fine line wrinkles, scars, large pores, uneven skin texture, redness and some skin tightening. It can be done individually or incorporated with any other laser treatment for added enhancement. I feel the treatment is relaxing and therapeutic as the skin is gently warmed. The Laser Genesis stimulates collagen growth, reduces redness and over a course of 4-5 treatments helps restore a smooth appearance to the skin. Try It!"
